Presidential Address

Arti Hurria, MD
Director, Cancer and Aging Research Program
City of Hope
Foster development of health professionals in the field of geriatric oncology, in order to optimize treatment of older adults with cancer.

Promote efforts in the following 3 strategic directions:

- Education
- Clinical Practice
- Research
SIOG: Incredible Opportunity

- Aging Population
- Cancer is a Disease Associated with Aging
- Only Society to Solely Focus on Geriatric Oncology
- Growing Research
- Committed Membership
Good to Great

We are in a growth phase

Supporting Our Members

Members → Advance Geriatric Oncology → Help Patients & Families
