21st Conference of the International Society of Geriatric Oncology

Geriatric oncology: the past, present and future

SPONSORSHIP & EXHIBITION PROSPECTUS
INVITATION TO SUPPORT
SIOG 2021 CONFERENCE

The SIOG Annual Conference is returning to Geneva, its home, to formally celebrate SIOG’s 20th Anniversary!

As the Co-Chairs of the Scientific Programme Committee, we are excited to announce the 21st Conference of the International Society of Geriatric Oncology / SIOG 2021 in Geneva, Switzerland on November 4-6, 2021.

Owing to the Covid-19 pandemic, we have to change the SIOG 2020 Annual Conference scheduled to be hosted in October to be a remote 3-hour meeting. In consequence, SIOG 2021 will be a special event, when we will physically meet again to formally celebrate the 20th anniversary of SIOG, with a three-day Scientific Programme at the prestigious International Conference Centre Geneva (CICG).

SIOG is the international leader in establishing the top priorities and actions to advance the clinical care, scientific discovery, and education for healthcare professionals caring for older adults with cancer. SIOG 2021 will bring together the leading experts in geriatric oncology to enhance the knowledge and competence across diverse, multidisciplinary settings.

The SIOG 2021 conference programme structure and theme will be announced soon.

We look forward to welcoming you to SIOG 2021 in Geneva, Switzerland

ABOUT SIOG

Founded in 2000, the International Society of Geriatric Oncology also known as SIOG (French acronym for Société Internationale d’Oncologie Gériatrique) was registered as a non-profit organisation under the Swiss Law in 2012. Positioned as a multidisciplinary team of oncology and geriatrics physicians, as well as allied health professionals and expert trainers, SIOG offers a unique collaborative approach to address the rising public health challenges related to ageing and cancer around the world. As of 2020, we count over 1800 members in more than 80 countries worldwide.

Our ambition is to bring cancer in ageing to a new level, where innovation, treatment and care can be accelerated for the quality of life of our patients.

MISSION & VISION

The goal of SIOG is to foster the development of health professionals in the field of geriatric oncology, in order to optimise treatment of older adults with cancer. SIOG promotes efforts under 3 strategic directions:

1. Education
   • Disseminate knowledge in order to maintain a high common standard of healthcare in older cancer patients
   • Integrate geriatric oncology in the curricula of medical and nursing education to ensure a high standard of qualification for healthcare professionals
   • Address the shortage of specialist oncologists/geriatricians & allied health staff in geriatric oncology
   • Increase public awareness of the worldwide cancer in the elderly epidemic

2. Clinical practice
   • Integrate geriatric evaluation (including comorbidities) into oncology decision-making and guidelines
   • Improve the quality of prevention, diagnosis, treatment, and follow-up of older patients with malignancies
   • Address issues of access to care, including the needs of the caregiver
   • Develop interdisciplinary geriatric oncology clinics

3. Research
   • Develop, test and disseminate easy screening tools
   • Create a clear and operational definition of vulnerability/ frailty applicable to oncology
   • Increase the relevance of clinical trials for older patients
   • Improve research in the field of geriatric oncology
   • Promote multidisciplinary, basic/translational research on the interface of aging and cancer
